Introduction. Adolescence is the developmental period occurring between childhood and adulthood. Although no standard definition of adolescence exists, due largely to the lack of a clear demarcation between adolescence and adulthood, adolescence is often considered to be the second decade of life or the period between puberty and legal adulthood. Dr. Alan E. Kazdin is the author of 49 books for professional-audiences on topics of parenting and child rearing, child psychotherapy, cognitive and behavioral treatments, and interpersonal violence. Papers & Publications. Selected Publications (with PDF) (H-index=65; total citations=38,481)

Lyubomirsky, S. (2013). The myths of happiness: What should make you happy, but doesn't, what shouldn't make you happy, but does. Meet Our Team Michael Hubbell, M.D., F.A.C.O.G. Michael J. Hubbell, MD, FACOG has his family roots in the farming community of Wisconsin (Go Packers), but his formative years were spent growing up in Georgia.
