Get your Kindle here , or download a FREE Kindle Reading App . Roy Porter (1946--2002) was professor of the history of medicine at University College, London. His books include Blood and Guts, The Creation of the Modern World, Flesh in the Age of Reason, and The Greatest Benefit to Mankind, winner of the Los Angeles Times Book Award. 'Nobody will be able to put down this short history of medicine... without counting their blessings. Never have I read a book which made me so glad not to have been born before the mid-20th century.' Daily Mail Synopsis . Mankind's battle to stay alive is an enduring subject. Written by one of Britain's most respected medical historians, this title compresses into a tiny span a lifetime spent thinking about a millennia of human ingenuity in the quest to cheat death.
