Department of Bio-Industrial Mechatronics Engineering National Taiwan University Unit for the study of fluid behaviour, hydraulic theory and the properties of fluid mechanics. The modules are easily mounted on its top without the use of tools. If you want to be a superb shooter, you MUST HAVE very good basketball shooting form and technique. However, you don't need "perfect" shooting form. What is fluid-solid interactions ? It is what happens when the motions of a fluid and of a solid are somehow coupled.
