How Did We Find Out about the Universe? (Inventions That Changed Our Lives) [Isaac Asimov] on Amazon.com. \*FREE\* shipping on qualifying offers. Book by Isaac Asimov This is a fairly standard treatment of how we went from the idea that the universe was a hollow sphere dominated by the Earth to the big bang. (Actually, it starts with Galileo, so we skip the hollow sphere bit.) Anyway, it's material covered so thoroughly elsewhere by Asimov for adults that there's little interest at that end, but it ...Find out more about what a galaxy is and how many there are. Make a pinwheel galaxy pinwheel! Answer your questions: What is the Big Bang? What is a black hole? What is a planet? What is gravity? Games Crafts Activities Media Gravity. The Universe. Outer Space. Stars. Planets. Galaxies. Exploration. Everything! What Powers a Spacecraft? It all depends on what the spacecraft will do! Read on to ...Get this from a library! How did we find out about the universe?. [Isaac Asimov; David Wool] -- Explains how our conception of the size of the universe has changed as astronomers and their instruments have become more sophisticated.
