

Download How To Lead And Still Have A Life

Canadian researchers have discovered a new kind of organism that's so different from other living things that it doesn't fit into the plant kingdom, the animal kingdom, or any other kingdom ...In August, 1888 Vincent van Gogh began painting a series of works which, as Dr. Jan Hulsker suggests "perhaps more than any other of his paintings, have made him known throughout the world.The Zone Rouge (English: Red Zone) is a chain of non-contiguous areas throughout northeastern France that the French government isolated after the First World War.Demonstration. Measuring the half-life of a radioactive isotope brings some of the wonder of radioactive decay into the school laboratory. Students can witness one element turning into another and hear (or see) the decrease in the radiation it gives out as it transmutes.
