

Download International Building Code 2003 International Code Council Series

The Chicago City Council voted to modernize their building code based on the International Codes, which will advance building safety in Chicago, contribute to creating consistent codes across the state, and help the city and the region attract more...The International Building Code (IBC) is a model building code developed by the International Code Council (ICC). It has been adopted for use as a base code standard by most jurisdictions in the United States. This site has been tested and optimized for Firefox, Safari, Chrome and Internet Explorer 10+. We recommend users of early versions of Internet Explorer to update to Version 11 or later. This comprehensive publication provides a convenient reference for regulations in the 2018 International Energy Conservation Code® (IECC®). The commentary series is presented in an easy-to-understand format.
