

# **Download Moving With A Purpose Developing Programs For Preschoolers Of All Abilities**

IN THIS CHAPTER WE TAKE A FOCUSED LOOK at curriculum and pedagogy. In an important sense, pedagogy is the overarching concept; it refers broadly to the deliberate process of cultivating development within a given culture and society. FOCUS Webinars. The FOCUS (Focus on the Outcomes of Communication Under Six) is a measurement tool designed to evaluate participation-based outcomes in preschoolers with speech and language impairments. Kaplan's safe and engaging activity sets help young developers begin to move, crawl, and stand on their own. Our crawl-alongs, push-alongs, sensory balls, cars, climbers, and slides all encourage children to remain active and develop their full range of movement skills. Instructor: Shelly Watkins. Shelly has instructed college biology courses, as well as graduate students in health profession programs. She has a doctorate in physical therapy.
